BELOW WE PUBLISH A LETTER FROM OUR SAN JOSE HOUSE:

SAN JOSE, May 16, 1884.

MESSRS. HALE BROS. & CO., Sacramento:

GENTS—In November last we wrote you and you published certain disparaging statements regarding J. & P. COATS SPOOL COTTON. Since then under representations and evidence presented by the agents, MESSRS. KITTLE & CO., we have investigated more fully than we previously had done the matters at issue between us, and our sense of equity and justice prompt us to say to you and to all others that we are now satisfied that an unintentional injustice was committed, and that abundant testimony has been furnished us that the brand in question commands the preference of a very decided majority of our population. So convinced are we of this that we have determined to keep J. & P. COATS' THREAD in stock hereafter, and we advise you to do the same.

Very truly yours, O. A. HALE & CO., per L. O. B.

COUNTRY ORDERS RECEIVE PROMPT AND CAREFUL ATTENTION.

DR. HENLEY'S
CELERY, BEEF AND IRON
The Greatest Nerving Known.
(Liebig's Extract), the Wonderful Nutritive and Invigorator.
(Pyrophosphate), Tonic for the Blood, and Food for the Brain.

A FABULOUS DISCOVERY.

Worth Millions to the Human Family—Celery as a Cure.

The habitual daily use of this vegetable is much more beneficial to man than most people imagine. The writer, who is familiar with its virtues, is acquainted with many men and women who from various causes have become so much affected by nervousness that when they stretched out their hands they shook like aspen leaves, but by a moderate use of celery they became as strong in nerve as other people. We have known others to be cured of palpitation of the heart. To this we may add that we received of Dr. Henley, of Portland, Oregon, a bottle of "Celery, Beef and Iron." By close analysis we state the preparation called Celery, Beef and Iron is what it is represented to be, absolutely pure, and every one engaged in labor weakening to the nerves should use "Celery, Beef and Iron." We find also according to the formula received, each bottle is composed of Liebig's extract of beef, extract of celery, and pyrophosphate of iron with condensed wine. These combined we pronounce the best known remedy for any disorder of the nerves or neuralgia. The most delicate nerves, even of birds, we give celery, how much better will it subserve the wants of the human family?—Prof. B. H. Oppenheigen in Journal of Chemistry.

FROM A PHYSICIAN.

LUNDY, Mono county (Cal.), June 21, 1882.

GENTLEMEN:
I have sold **WISTAR'S BALSAM OF WILD CHERRY** for twenty years on this coast, and I consider it one of the best patent medicines sold for Coughs, Colds and all affections of the Throat and Lungs. I keep a drug store here in connection with my practice. Very respectfully,
R. C. GUIRADO, M. D.

FROM A DRUGGIST.

I will state with pleasure that during the time I have been in the drug business I have sold many kinds of patent medicines, the most of which have fallen into oblivion as soon as the advertisements were suppressed. It is not so with **DR. WISTAR'S BALSAM OF WILD CHERRY**, which has kept its own advertising by its standard medicinal virtues. I have sold it in this city for over twenty-two years.

THE LATE CONSPIRACY.

There have been political conspiracies which have startled nations, that have fallen short of overt rebellion. But, in the history of free and independent States, no bolder or worse political scheme is recorded than that recently made in this sovereign State to seize upon the tribunal known as the Railroad Commission. It does not as yet stand out in all the fullness of its viciousness, but as time passes and passions give way to reason and prejudices yield to justice, it will be recognized as in the forefront of villanous conspiracies, and will serve to mark a period in State history to which the people will point as a blot upon our political record that even the attrition of years will not efface. It was a conspiracy concocted for the sole purpose of coercing the transportation interests of the State, and of extorting money from and commanding the influence of transportation associations for selfish ends.

The influence of money in the political affairs of the country is justly regarded as dangerous and necessarily corrupting. Likewise is the influence of money in the political interests of railroad companies. Railroad men will not be found to take the contrary view. They, as well as other men, know that their interests are politically assailed with the hope of compelling the corporations to use money influences in self-protection. Indeed, this has been true of all associations handling aggregated capital—they are always, and always have been, assailed for the purposes named. But it is also true that the world has assumed that far more of political influence has been exerted by associated capital than the truth warrants. It has the stigma attached of buying purchasable men and controlling political cliques, because purchasable men and political cliques have given the occasion. In this State the Democrats, asserting that the railroad companies had no right to interfere with the politics of the country, absolutely undertook to coerce them to do so. They pretended to be anti-railroad, and yet they conceived a scheme whereby the railroad should drive the people into voting the Democratic ticket. Denying the right of the railroad companies to interfere with politics, they determined to put their interests at such risk as to make them the instruments of oppression. This was in all respects the most damnable scheme ever conceived. It is capable of demonstration in every particular as we have asserted. It was a conspiracy hatched in the interest of George Hearst, fostered and wet-nursed by Clarence Greathouse, and brought to development by the weakness of Governor Stoneman, who was made the tool of the scheme. We make these assertions, fully conscious of the gravity of their import, but knowing history will vindicate them as verity. Their elaboration and analysis may serve for further expression.

THE MEN WHO COMPLAIN.

An officer spent an entire day last week in Oakland in the effort to secure a panel of twenty-four men, from whom a jury of twelve could be drawn to serve in a criminal case. He was unsuccessful, and was compelled to devote a portion of a second day to the task. The incident serves to point a moral, but it does not adorn the tale. The unwillingness of citizens to do duty as such; to share the burdens as well as the privileges of government; the readiness with which they excuse themselves from duty, and the ease with which they avoid the obligations of good citizenship, lie at the root of the evil of non-enforcement of the criminal laws, and the escape of the guilty. It is probable that should a riot occur owing to a failure of justice in Oakland, the men who evaded that officer, or pleaded off the panel, will be in the forefront of indignant citizens to denounce the Courts and the law officers and the incompetents and rag-tag that are drafted to jury duty. The truth is, that such shames as the Cincinnati outbreak are to be laid directly at the door of the goody-goody class of citizens, who "don't bother about politics;" who "never attend a primary;" who are "too busy to visit the Courts;" who are too pure and good to "mingle among politicians" and help administer government. No man has a right to open his mouth against the triumph of criminality, the victories of the venal, the degradation of the Courts, the decadence of the jury system, the filth of politics, the corruption of officials, etc., who toasts his toes at home when he should serve his country, or gives his whole attention to business and leaves the vicious to run politics and pack juries.

USE FOR AN EDISON INVENTION.

It is announced that a company of German scientists, about to penetrate to the interior of Africa, will utilize the Edison phonograph during the excursion. The object is to bring back with them a record of the various tongues spoken by the African tribes, in a form that will permit of their reproduction vocally, and consequently of their study. For this purpose a machine is being specially constructed for their use. From what we know of the phonograph in this country the scheme will be a failure, unless the Edison phonograph is greatly improved upon. If any lone African should happen in after years in Berlin, and hear his language ground out from Edison's machine, he will be less loyal to his tribal tongue than such a savage should be if he does not smash the mangler of human speech promptly. As a toy the phonograph has a use—that of satisfying curiosity. Probably it has in it suggestion of possibilies of usefulness. But as it is, it is a failure. And by the way, it is to be noted that comparatively few of Mr. Edison's "great inventions" fill the promise of their birth. It is charged that he is by no means original, also, and that at best he is but a copyist and an "improver" upon the product of other men's genius. His quadruplex telegraphic instrument is boldly assailed as but the duplication in double form of a prior invention; that his incandescent electric light is not even novel, so far as he is concerned; that his electrical railway involves nothing that is an advance upon former appliances. It must be confessed that his greater "inventions" do not come into use as was anticipated; that his more useful "discoveries" are after all not new, and that his performance has by no means kept pace with his promise. It may be that the world misjudges him, but it is certainly true that it has reason to express its disappointment.

JEFF. DAVIS.

Jefferson Davis, late President of the Confederate States of America, has written a letter to the Committee of Management of the July military encampment of the Georgia State troops, in which he gives new evidence of the fact that at least one rebel remains unreconstructed. For instance, he speaks of "the war for State sovereignty," and the sons of those who so nobly fought for "the cause," and adds: "Borne down by overwhelming numbers, Southern resistance to wrong and usurpation proved unavailing, but believing, as I did and do, that the cause was just, that we were but asserting the eternal truths on which our fathers founded American independence, and which, sooner or later, I hope and believe the American people will reassert, I cannot admit that ours was a lost cause." There is one virtue in such effrontery—with the approach of summer cool things are timely. If Mr. Davis was half as wise as he is proclaimed to be he would have enough of modesty to restrain him from making such silly expressions. He hopes, he says, that it may not be necessary to vindicate the cause "by a second resort to arms," but, etc. Mr. Davis lives to some purpose after all. He "bobs up serenely" just in time to recall to the memory of the people the terrible struggle in which he and his doctrines went down, and the integrity of the Union was preserved by the firmness, bravery and wisdom of a Republican President, and the advisability of keeping Republicans in the Presidential chair until all who applaud the utterances of the rebel chieftain are beyond the possibility of doing harm on earth.

CANADA'S DECADENCE.

A strong effort is being made in Canada to secure the passage of a law legalizing lotteries. It is significant of a decadence of the moral sentiment of a people when such a proposition is even tolerated. If Canada sets up such a law it will be said that most of her people are at heart gamblers. Lottery dealing is the worst known form of gaming; the one game in which the bettor cannot witness the dealing by the banker; the one game into which men being drawn it is almost impossible to win them away. The secresy with which lottery gaming may be prosecuted makes it all the more demoralizing. To legalize a system that debauches youth, involves age and contaminates all, is to deliberately give over a people to a vice almost immeasurable in its damnable effects.

AN AMENDMENT NEEDED.

If the Constitution permitted, as it should be amended to do, the President to veto items of an appropriation bill, we should hear nothing of the trouble the river and harbor bill always makes. There is asked under it this year $13,000,000. Of this amount probably $5,000,000 or $6,000,000 should be vetoed, and would be if the Federal Executive had the authority. The whole trouble about the bill each year arises out of the fact that Congressmen clap "riders" upon it. These "riders" represent personal interests—that is to say, the capital small Congressmen expect to make at home by securing Government expenditure of large sums for trout streams and duck pounds, dry runs and tail races.

SUPPOSE the Chinese Government should be irritated by our restriction law, Mr. Frelinghuysen, what of it? Who make the laws of this country? With reference to whose benefit are they made? Are we to refrain from legislation demanded by the people because the Emperor of the Chinese might not like it?

HOME HAPPENINGS.

[SPECIAL DISPATCHES TO THE RECORD-UNION.]

United States Senate.

WASHINGTON, May 21st.—A number of petitions were presented and referred, protesting against any Governmental assumption of the telegraph service.

Harrison presented a counter petition, setting forth that the Western Union Company's employes are engaged in getting signatures to petitions in opposition to a postal telegraph.

The following bills were passed for the erection of public buildings: At Vicksburg, $100,000; Chattanooga, $100,000; Opelousas, La., $50,000; Portland, Or., $250,000; Sacramento, $100,000; Dayton, O., $150,000; Springfield, O., $100,000. The above sums include the cost of sites and buildings.

The Utah bill was laid aside, and a bill establishing a Bureau of Labor Statistics was taken up.

Pending action, unanimous consent was obtained to put a number of bills for bridges up on passage, and they passed, including one authorizing the Bellingham Bay Railway and Navigation Company to build bridges in the Territory of Washton.

After an executive session, the Senate adjourned.

House of Representatives.

WASHINGTON, May 21st.—The House today resumed consideration of the Indiana contested election case of English vs. Peelle.

Blackburn supported the claims of the contestee.

After considerable debate Peelle addressed the House in his own behalf, and English's claims were advocated by Hurd, Springer, Henley and Converse of Ohio.

Hart then offered as a substitute for the majority resolution, the resolution of the minority confirming the right of Peelle to a seat.

During the progress of the vote there was a great deal of interest manifested. English sat at his desk in the last row and kept tally, and looking over his shoulder stood his father and a number of members watching each vote intently.

At the conclusion, when it was evident that the resolution was agreed to, Springer, who had voted in the negative, changed his vote to the affirmative, for the purpose of moving a reconsideration.

The vote was then announced—yeas 121, nays 117.

The following Democrats voted with the Republicans in the affirmative: Aiken, Beach, Boyle, Budd, Connolly, Dargan, Finlay, Greenleaf, Hardeman, Herbert, Hewett of Alabama, Hunt, Jones of Wisconsin, Love, Miller, Morgan, Neese, Peel of Arkansas, Potter, Stevens, Sumner of California, Throckmorton, Tellman, Turner of Georgia, Woodward, Worthington and Yaple.

Springer immediately moved a reconsideration, and Hart moved to lay that motion on the table, pending which Converse moved to adjourn.

The motion was carried—yeas 119, nays 118—amid applause on the Democratic side.

General Grant's Residences Mortgaged.

WASHINGTON, May 21st.—General Grant has placed a mortgage on his property in this city in favor of W. H. Vanderbilt, to partially secure the latter in $150,000 loaned the General in New York. The instrument bears the date of May 17th.

PHILADELPHIA, May 21st.—The Recorder of Deeds received yesterday for record a mortgage conveying from Ulysses S. Grant to William H. Vanderbilt the property at 2009 Chestnut street, now standing in Grant's name. The mortgage is dated New York, May 17th, to secure in part the payment of a debt of $150,000 which the General owes to the millionaire, and shows that he does not intend to avail himself of Vanderbilt's offer not to trouble himself about the payment. The property is a private house, the gift of citizens of Philadelphia to General Grant, and is valued at about $30,000.

Finances in New York.

WALL STREET, May 21st—11 A. M.—Stocks opened irregular and advanced ⅛ to 1 before the first call, but became weaker and declined ¼ to 4. Jersey Central, Lackawanna and Central are weaker. Jersey Central sold down to 65¼, Reading 23½, Lackawanna 104.

J. L. Brownell & Co. have failed. Brownell & Co. consists of J. L. Brownell, H. M. Walker and L. W. Murray. The firm was formerly Brownell & Walker. Shrinkage in values caused the failure. Liabilities light.

Everything is quiet at Sage's office. He is receiving notifications of stock to be put at New York to-morrow.

NEW YORK, May 21st.—The *Post* says: There was more excitement in Wall street this morning than on any day since the panic. The market opened weak and feverish, and prices of all securities were rapidly forced down. A number of commission houses to-day refused to sell or buy stocks on margins.

Industrial Congress.

CHICAGO, May 21st.—Representatives are in attendance upon the Industrial Congress which began its session here this forenoon. The attendance is light, only forty-two delegates being present. T. D. Curtis, of Syracuse, N. Y., was elected temporary Chairman. In taking the chair he delivered an address in strong advocacy of protection, as opposed to free trade, and declared the salvation of American industry rested on their making a common fight against the advocates of free trade, irrespective of political party lines. The majority of the delegates present represent the beet sugar, sorghum, jute, flax and salt industries, and will urge upon the National Republican and Democratic Conventions the necessity of protection laws to prevent their destruction.

L. Bush, of Louisiana, was elected permanent Chairman. A Committee on Resolutions was appointed.

Adjourned till 2 P. M.

The Louisville Races.

LOUISVILLE, May 21st.—The first race today was for the Fairview stakes, for two-year-old fillies, three-quarters of a mile. In the stretch, Tabitha (the favorite) went to the front, and won easily by three lengths, Impromter second, Vallua third. Time, 1:17½. The race for the Tobacco stakes, for two-year-olds that have not won a race prior to January 1, 1884, mile heats, Mark Daly won in straights. Time, 1:46½—1:46. West and Madison were distanced in the second heat. The race for the Club purse, five furlongs, was won by Princess, Grace second, Premium third. Time, 1:01. Lady Hobson ran away and did not start. The steeplechase handicap, mile and a half, Major Pickett won, Carter Harrison second, Ohio Boy third. Time, 3:27.

A Lost Lord Found.

NEW YORK, May 21st.—The papers publish accounts of the discovery of the lost Lord Drummond, heir to the Earldom of Perth and Milford, and a kinsman of Queen Victoria, who has been found in a Broadway clothing house working as a porter. He came to America with his governess twelve years ago, was married on his arrival, and has since struggled along in poverty and distress, his father having renounced him. He goes by the name of Geo. Johnson, and evinces much more aptitude for physical than mental labor. The peerage of which he is the next heir antedates the discovery of America. It is stated that a reconciliation of Lord Drummond with his family will be effected.

A Long Tramp.

NEW YORK, May 21st.—Ralph Beaumont, of Elmira, President of the Knights of Labor, will make a tour of the continent on foot, from Maine to California. He will start from Bangor, July 3d, and expects to make upwards of twenty miles a day, delivering lectures every night at some town en route on the labor and anti-monopoly questions. He will advocate the claims of Butler by the support of independent voters as a Presidential candidate. Mr. Beaumont expects to reach California before the close of the campaign.

The Men who Attacked Paymaster Whipple.

GLENDIVE (M. T.), May 21st.—Five men were found by Sheriff Taylor to-day who "stood him off" with rifles when he attempted to arrest them for the attack upon Paymaster Whipple and for the murder of Sergeant Conrad. Major Bell, with a troop of cavalry, is on their trail. Alexander McCannon, a horse dealer, has been arrested as an accomplice.

New Hampshire Democratic State Convention.

CONCORD, May 21st.—The State Democratic Convention, Chairman H. W. Parker, denounced protection, and said a tariff for revenue only would be the issue of the campaign. The resolutions declare against all laws tending to the centralization of power, wealth and political influence; demand a reduction of the war tariff; commend the Democratic majority of the House for recent efforts for tariff reform; that there shall be no cessation of efforts until the internal revenue system is re-established on an honest basis; call for a thorough reform of the tariff, financial and administrative affairs; arraign the Republican party as false to the interests of the people; assert a condemnation of the great crime of 1876, "a wrong we propose to right and make impossible hereafter." Frank Jones, H. O. Kent, F. A. McKean and A. Sulloway were chosen delegates at large. No instructions were given, but as the unanimous sentiment of the Convention favored the "old ticket," they will support it at the National Convention. The Convention then adjourned.

[SECOND DISPATCH.]

CONCORD, May 21st.—The Democrats chose district delegates to the National Convention who are all in favor of the old ticket, but uninstructed.

The Methodist Conference.

PHILADELPHIA, May 21st.—At the Methodist Conference this morning the question of sending a missionary Bishop to Africa was taken up. After discussion, it was agreed to send a Bishop to Africa, and nominations for the place were declared in order. The greatest confusion prevailed. The Secretary announced the following to be voted for: Rev. Joshua E. Wilson, of South Carolina; Rev. L. M. Vernon, Rev. C. O. Fisher, of Savannah; Rev. E. W. S. Peck, of Washington; Rev. Wm. Taylor, of India; Rev. Marshall W. Taylor, of Lexington. The latter withdrew his name, also Peck's. The Conference adjourned until this afternoon, when the candidates will be voted for.

THE COLOR LINE.

PHILADELPHIA, May 21st.—In the afternoon session of the Methodist Episcopal Conference, the question of the future policy of the Church toward the social prejudices in the South, which in some cases excludes colored people from church membership and school attendance with the whites, was discussed. The Committee on State of the Church presented two reports. The majority report declared that no person should be excluded from worship in any church, nor from attendance upon any school, on account of race, color or previous condition of servitude. The minority report declared that color is no bar to any right or privilege of membership or office in the church, but "recognized the propriety of such administration as will secure the largest concessions to personal preferences, involving merely social relations," and concluded that "therefore, there was no need for action upon this subject." After a long discussion, the previous question was ordered, and the majority report adopted.

BISHOP ELECTED.

PHILADELPHIA, May 21st.—The Methodist Conference elected to the African Bishopric William Taylor, of the South India Conference. Dr. B. F. Crary was elected editor of the *California Christian Advocate*. The Conference then adjourned.

Presbyterian General Assembly.

SARATOGA (N. Y.), May 21st.—In the Presbyterian General Assembly to-day the forty-sixth annual report of the Board of Publication was submitted. The total issues during the year were 1,789,500; aggregate publications, 15,195,566; receipts, $308,397; expenditures, $285,286; balance in treasury, $21,176. During the year the Board called for $75,000 for the missionary fund for the ensuing year. Rev. Dr. Alexander submitted a report of the standing committee on Board of Publication. A minority report was also submitted. Pending discussion, the Assembly adjourned till to-morrow.

Baptist Missionary Anniversaries.

DETROIT, May 21st.—The anniversary of the various missionary Societies of the Baptist denomination began this afternoon in this city. The annual meeting of four of the Societies, whose constituency are largely in the Northern States, occur here this week. The first Society to hold its meeting was the American Baptist Publication Society. Edward Goodman, of Chicago, presided. The report of the Board showed that the past year had been the most prosperous in the history of the Society. The receipts from all sources have been $582,957 56, of which $131,881 94 was for the missionary department. This was an increase of over $60,000. One hundred and eighty-three missionaries and secretaries have been employed, and 156,358 Bibles and Testaments have been given away, and 597 new schools organized. At the afternoon session Rev. Mr. Carter created a sensation by saying in his address that the popularity of the Society could be seen by the remark of a certain Sunday-school teacher, who informed his scholars that the American Society was the author of the Book of Acts.

More Rain in Texas.

GALVESTON, May 21st.—The *News* specials from Tyler, Marlin, Navarota, Crooked, Waverly and other points in Northeastern Texas, report another very heavy rainfall to-day, continuing to-night. This makes the fourth unusually heavy rainfall in that section since the 1st of May. Immense tracts of country are flooded. Such tremendous rains have not been known in Texas for many years. Great damage to crops has already resulted. In some sections the crops had been planted twice, and must now be planted again. At Weatherford the rainfall during the past twenty-four hours was over eight inches; at Caroicana, five inches; at Dallas, Palestine, Tyler and other points, four inches.

Damaging Cyclones.

GALVESTON, May 21st.—Information is received that a cyclone, 200 yards wide, passed between Fairfield and Stewartsville yesterday noon. The forest was uprooted in its pathway. The farmers are now out ascertaining the extent of the damage by following the track of the tornado. Specials from Hempstead report that a tornado passed through that county this morning near Howith's station, sweeping everything before it. A child six weeks old was blown sixty yards, and was unhurt. A house containing five negroes was blown down, and all escaped except one child, which was killed.

Court-house and Contents Burned.

SHAWNEETOWN (Ill.), May 21st.—News is just received from Elizabethtown that the Hardin County Court-house, with all the records, was consumed by an incendiary fire Monday morning. There has been a vendetta in progress in that county for several years, and numerous killings have resulted. Finally the law-abiding people took hold of the matter, and caused indictments to be found against a large number of these turbulent characters. It is the general belief that the Court-house was fired for the purpose of destroying the records of the indictment, in order to embarrass the proceedings against them.

HE CLINCHED THE SALE.—A Chicago paper tells the following at the expense of the ladies of that city: "When the opera came to Chicago," said the head of a large dry-goods house, "I noticed there were two or three expensive lace shawls sent home on approbation and returned the morning after the performance. This set me thinking, and when Mrs. B. came in the day of an opera night and asked to have one of the most expensive wraps sent home to look at, I just slipped out to old Swags, the ticket speculator, and bought seats immediately behind those of Mr. and Mrs. B. When I came in, a little late, there was Mrs. B. seated in front of me with the elegant lace wrap sent home in the morning over her shoulders. When she turned I greeted her politely, and said I was delighted the wrap had suited her. She looked rather unhappy during the performance, but the shawl was not returned to the store, and I charged my opera ticket to expense account."

San Francisco Money Market.

SAN FRANCISCO, May 21st.—The feature of the local money market for the past week has been the demand for New York exchange, especially telegraphic transfers, sales of which have been made at rapidly-advancing rates, say 50c, 75c, $1 and $1 25 per $100. The bankers declined to sell large amounts even at these rates, not wishing to embarrass Eastern correspondents in the present financial stringency. Sales of these transfers were made yesterday at $1, but only in limited amounts. The market to-day is irregular, though the nominal quotation is $1 for telegraphic transfers on New York and 25@30c for sight drafts. The supply of documentary exchange on London is small. Bankers are buying such exchange at 49⅝@49¾d, and are drawing their own bills at 48⅞@48¾d. Refined silver is dull at 14@15 per cent. discount and Mexican dollars are nominal at 89@89½c apiece. There is a good local demand for money at 5@6 on call, 6@7 on city real estate and 7@9 for regular commercial paper and over-drafts. The general rate for commercial loans is 8. A private banker has loaned as high as 8@9 on city real estate the past week.

After an intermission and luncheon, a competitive drill of cadets was held on the ground, when the battalion was reviewed by Lieutenant-Colonel Ranlett, Fifth Infantry, Colonel F. H. Powers, of the University Cadets, and Major Verbeck, military instructor.

On the day of the shooting both men met at St. Thomas, and appeared to be good friends. Longstreet, some time after their departure, returned to St. Thomas and said that when he reached the Muddy, close to the Maopa reservation, Dry covered him with a gun, and he (Longstreet), to protect his own life, killed Dry. Justice Megarrigle held an examination and discharged Longstreet. Dry was the owner of a horse ranch on the Muddy, and some time ago killed a man named Haney. The Muddy is 75 miles southwest of Pioche.

Parnell complained of the opposition offered by Trevelyan, Chief Secretary for Ireland. He said the Government must not find fault if it meets with retaliation. "Does the Government," he asked, "mean to wait until the laborers burn the houses over the heads of dissenting landlords? The laborers have been patient, but it is intolerable that they should continue to live upon mud floors until a Commission has investigated their grievances."

COMPANY.
MARYSVILLE LAND DISTRICT.

UNITED STATES PATENTS RECEIVED

Information to Purchasers, Applicants and Settlers.

United States Patent No. 37, dated April 30, 1884, to the Central Pacific Railroad Company, embraces lands described in the subjoined tabulated list.

A large proportion of these lands have been in the possession of applicants to purchase. Some have been sold anticipating the patent; others are now for sale to the applicants to purchase from the Railroad Company.

This publication is made chiefly for the information of applicants to purchase, and to answer many inquiries.

All the lands in this list not already graded will be reviewed at once by Dana Perkins, the Field Agent of the division wherein the lands described are situated.

Notice of office land trials to determine the prior rights of the purchasers will be issued at the earliest practical date; and the rights of those who have in good faith settled upon and improved the land applied for by them will be satisfactorily adjusted. The lands remaining unsold after this adjustment will be advertised for sale.

There will be no unnecessary delay in obtaining Patents for all the land applied for to which the Company may be entitled in the Sacramento Land District; and all reasonable encouragement will be extended to secure their earliest occupation and cultivation.

LOCAL INTELLIGENCE.

CONCERNING GAME PROTECTION.—There is a rapidly-growing revival of sentiment in the Eastern States relative to the preservation of game, simply for the reason that the supply is with each year diminishing. The matter is deserving of special attention in California, where, the indications are, that within a few years, if the decrease of game is as great as it has been during the past decade, there will be little left for the sportsman in fields, woods or waters, and the market price will be far above the purse of the citizen who gets a moderate salary. Take the vicinity of Sacramento, for example, where the sportsman a few years ago considered his hunt a failure unless he could count the contents of his game bag by the dozen, and now he feels elated if he can secure half a score of birds. It is not good policy to wait until the game is entirely killed off before restrictive measures are thoroughly enforced. The *Forest and Stream* has the following concerning legislation recently enacted at Albany, N. Y.: "The game-law tinkers, who turn up annually at Albany, have devised certain amendments to the present statute which will effectually nullify any force the law may have now. One amendment allows owners of land to trap birds on their own property—which means that the New York and Albany and Utica and Buffalo markets will be piled up with snared game. Another permits the sale of woodcock in nine counties, including New York county, in July—which means that the market refrigerators will be stuffed full of woodcock, killed out of season in other parts of the State. This is something like the 'refrigerator amendment' which Abel Cook tried to foist on the sportsmen of this State some years ago. A third clause so hampers the investigation of suspected stores of contraband game that it practically puts beyond probability the detection of the offenders. These three moves are all in direct interest of the market dealer, and, we understand, are engineered by the same individual who has been so notoriously engaged in working for the New York game dealers for several years past. The only salvation against the machinations of the selfish game law tinkers is a powerful State association of men who honestly desire the good of the sportsmen community and will work to secure it. Is there any possibility of organizing such a society? It would have abundance of work to do. We have been shown to-day two snared quail from a wholesale poultry dealer's refrigerator in this city, and the man who brought them in said he would get thousands of the same sort, with woodcock and ruffed grouse in the bargain."

THE FARMERS' PICNIC.—The Farmers' and Grangers' picnic was held at Beach's Grove, near Freeport, yesterday. It was a pronounced success in every particular. Admission to the grounds was free, but the male guests were solicited to contribute to a fund for the Protestant Orphan Asylum, and it is probable that a very handsome sum was realized. That the farmers and grangers should annually make this offering to that charity is greatly to their credit and typifies the large-heartedness of the rural residents of the country. There were present not less than 3,500 people, and as no steam lines by rail or water lead to the grove some idea of the number of vehicles utilized to convey this large number of people to the grounds may be formed. It really seemed as if one had never before seen so many horses and buggies grouped together, and, what was more, there was not, so far as observant reporters could discover, a "scrub" horse in the lot—it was a collection of fine serviceable animals, and testified to the good judgment and thrift of the farmers in maintaining good stock, and to the fine turn-outs from the private and public stables of this city. During the entire day the most perfect order prevailed; there was not heard a harsh word or seen or reported a single breach of propriety. The management certainly was in good hands. The farmers and grangers being the hosts, manifested the hospitality of their guild by making it a solicitous point that every visitor from the city had an invitation to one or more of the hundreds of luncheon parties held beneath the deep shade of the trees. There were games for the young people, and some for adults, for which liberal prizes were offered, and in which a great number engaged. The contests, especially in foot-racing, greatly amused the people. Glass ball shooting was engaged in on one division of the grounds, and was availed of by a number of sharpshooters. A large platform was newly canvased for dancers, and Grant, Jones & Beebe's orchestra furnished excellent music. It was almost sunset before the last of the picnickers left the grounds.

CRIMINAL CASES.—In Department One of the Superior Court, yesterday, C. J. Barry and Fred. Rollinson, who on the previous day had pleaded guilty of grand larceny in robbing a public woman whom they had previously got intoxicated, came up for sentence. Judge Armstrong announced that he had inquired into the matter, and became convinced that Barry was most to blame. He accordingly sentenced Rollinson to a term of one year in the State Prison at Folsom, and Barry to a term of three years. The latter was greatly affected when he arose to make a statement previous to the pronouncing of sentence, and, as his tears flowed freely, declared that he would not have been where he was, awaiting sentence, but for his having taken too much whisky through the advice of friends, who had told him that it would assist in his getting rid of the effects of poison oak, from which he was suffering. When Judge Armstrong gave him a term of three years, he appeared bewildered. Rollinson, who could not have expected a lighter punishment, declared, after the pronouncing of sentence, that he was innocent of the theft, and that his imprisonment was the result of his getting into bad company. He spoke bitterly of the conduct of the other bicyclists who came to the coast with him, and who, he claimed, had not only deserted him, but taken his property......H. H. Mansfield, accused of bigamy in marrying a young lady of Sacramento while he had another wife living, appeared in Court, withdrew his plea of not guilty, pleaded guilty, and will receive sentence to-morrow morning. It is said that he changed his plea because of an understanding with the City Attorney that he would get a light sentence—probably one year. The original Mrs. Mansfield, it is understood, is willing that he should receive such a sentence, as she only desires to vindicate herself, and proposes to bring suit for divorce; but the friends of the young lady whom he so greatly wronged, under pretense of making her his wife, desire him punished to the extent of the law.

PASTORAL RECEPTION.—In the lecture-room and parlors of the First Congregational Church last evening the newly-installed pastor, Rev. W. C. Merrill, held a reception by request of his parishioners and friends of the church, that they might have an opportunity to greet him socially and with the unreserve of social gathering. During the evening several hundred people visited the rooms and greeted the new pastor cordially. Among these were scores of people who are not classed as church members, but who take some degree of interest in churches nevertheless. The heartiness, frankness and cordiality with which Mr. Merrill was met by the people, and the sincerity of the wishes expressed for his success in his new charge, must have been very gratifying and encouraging to that gentleman. The lecture-room and parlors were elaborately decorated with an abundance of choice flowers, trailing vines, evergreens, etc. There were also a large number of elaborately executed floral pieces, some of them being exquisitely worked out in choice flowers. During the entire evening the ladies of the church served to the guests an ample luncheon, and with a generosity as to quantity in the service that was specially noticeable. The social and free character of the gathering was enhanced by the presence of a large number of children, who were given entire freedom and relieved of restraint, the result being that their activity and their voices added to the general cheerfulness which pervaded the assemblage, and made the gathering resemble closely that of a very large family reunion.

VALLEY FRUITS.—The market for early fruits and berries this spring is better than ever known before. The wholesalers buy all they can get, giving therefor good prices, while the canneries stand by and make a bid for all the farmer has, at nearly as good a price. Some of the berrymen are selling their entire crops to the canneries, who buy them in bulk. One of the producers, in conversation with a reporter yesterday, said: "The canneries give me so near the price offered by the produce merchants, that the difference won't pay for the sorting of the berries, and the putting of the best ones on top." The Capitol Packing Company has 100 women, boys and girls working on strawberries, and would employ as many more were the berries to be had. What has been said about strawberries applies to the cherry crop, which has just begun to come in. The best berries come from the neighborhood of Brighton. The peach crop, which some thought some time since was going to prove almost a failure, now promises to be considerable more than half a crop. As the crop develops, it shows that the fruit is going to be very much larger than usual, and of course will be much better than when the trees are heavily laden. Apples, pears, plums and grapes look well, and there will be a large crop of each.

MUSICAL SOIREE.—Mrs. Pinkham and her pupils gave a musical soiree last evening at her residence, 820 Eighth street. Invitations had been extended to a large number, and at 8 P. M. the capacious parlors were well filled. The following programme was well rendered, all who took part doing themselves great credit, and encores were frequent: Piano duet, "Galop," Miss May and Master Charlie Pinkham; vocal solo, "When the Leaves Begin to Fade," Miss Dottie Thorp; piano solo, "Titania," Miss May Pinkham; quartet, "Sigh No More, Ladies," Misses Felter, Campbell, Cooper, Mrs. Harper and Scriver; piano solo, "Dancing Ripples," Miss Rivett; vocal solo, "Be Thou With Me," Mrs. Harper; duet, vocal, "Give Welcome to the Swallows," Mrs. Scriver and Pinkham; piano duet, Miss Kelly and Mrs. Pinkham; vocal solo, "Forest Fairy," Miss May Pinkham; vocal solo, "Euridyce," Miss Cooper; piano solo, "Spinner Leid," Miss Cross; vocal solo, "Forget Me Not," Miss Campbell; vocal solo, "Magnetic Waltz," Miss Felter; quartet, "Spring is Here," Misses Felter, Campbell, Cooper, Mrs. Scriver and Harper.

Kimball, Tehama county, 109.51 acres; A. D. Agostini, Plumas, 400 acres; T. T. Hamlin, Tulare, 1,027.83 acres; R. R. Thomason, Tulare, 3,079.50 acres. School lands—W. Webster, Fresno, 320 acres; D. B. Reed, Calaveras, 160 acres; W. B. Chaffey, San Bernardino, 80 acres; M. Bryant, San Joaquin, 160 acres; James and Joseph Warner and M. V. Seeley, Fresno, 3,360 acres; J. B. Byrne, Butte, 80 acres; Sierra Nevada Lumber Company, Sierra, 640 acres; George Graves, Monterey, 320 acres; W. F. Goad, Monterey, 320 acres; M. Byrne, San Bernardino, 240 acres.

THE RIVER TRADE.—The steamboats on the Sacramento river are doing quite a large business, outside of grain transportation. Within the past week over 1,250,000 feet of lumber has been landed here, besides large quantities of posts, shingles, wood, merchandise, etc. One barge, the Centennial, now discharging at the foot of N street, had on board 500,000 feet of redwood lumber. Many barges are engaged in the transportation of wood from the upper Sacramento to this place and San Francisco. Some time since Stocktonites found that they could get their wood cheaper from here than elsewhere, and so three bargeloads have been sent to the "city of windmills." The steamer Dover left yesterday for Stockton with a barge containing 400 cords of wood, which came from Packer's Landing, above Colusa.

RIVERSIDE-ROAD SCHOOL.—The annual examination of this flourishing school, for the promotion and graduation of pupils, was held on the 20th instant by County Superintendent Charles E. Bishop, assisted by the teacher, Professor W. J. Hyde. There were in attendance over fifty pupils, of almost every age and stage of advancement, who, during a most exhaustive examination, evinced an unusually clear and intelligent knowledge of the various branches taught, and which satisfied all concerned that the school is under judicious training. The silver medal annually donated by the County Superintendent of Schools for the best general deportment, was awarded to Miss Carrie Trowbridge by the unanimous vote of her school mates.

THE WHEAT CROP.—Captain Page, who came down the Sacramento river, from above Colusa, on the steamer Dover Tuesday, says that the wheat crop along the entire river never looked so strong and healthy, and promised to yield so well, as at the present time. Captain Foster, who has been visiting the vicinity of Stockton and the "West Side," says the same thing regarding those sections. Farmers from Yolo and all parts of Sacramento county say that the grain fields look fine, and an abundant harvest is assured.

APPOINTED BY THE GOVERNOR.—The Governor yesterday appointed and commissioned I. W. Raymond, of San Francisco, and J. M. Griffith, of Los Angeles, Commissioners to manage the Yosemite valley and Mariposa Big Tree Grove for the term of four years, vice themselves, term expired. Also, Henry G. Hanks, State Mineralogist of the State of California, for the term of four years, vice self, term expired.

L. J. ROSE'S TROTTERS.—L. J. Rose, of Los Angeles, has had brought up to Oakland four of his best trotters, two two-year-olds and two four-year-olds. They will be entered for the races of the near future to come off in Sacramento and other places. He expects that one of his colts will eclipse the time of Governor Stanford's young trotter, which has at present the best record.

COMMERCIAL.—Arrived yesterday, steamer San Joaquin No. 3, from San Francisco, with merchandise and lumber; steamer Neponset, from the upper Sacramento, with produce; steamer C. M. Small, from Marysville for San Francisco, with grain. Sailed, steamer Dover, for Stockton, with bargeload of wood; steamer San Joaquin No. 3, for San Francisco, with merchandise.

WEATHER REPORT.—Sergeant Barwick says, from the weather reports last night at 8 o'clock, the storm or storms that have so long been giving threatening weather, appear to have left the coast and "passed over the range." The barometer at that hour was rising and nearing 30 inches, which is generally the point that indicates fair weather.

MARTHA WASHINGTON FESTIVAL.—At the First Baptist Church, Ninth street, to-morrow evening, a Martha Washington festival will be given by the ladies, with a very interesting programme, as published in another column. Martha Washington and her attendants will serve strawberries, soda, etc., after the exercises are over.

Capitol Park lately has been neglected very much. The grass is not watered and cared for as it should be, and the trees and flowering shrubs are being destroyed by children. In the rear of the Capitol the grass in many places is dying out from want of proper care.

The backers of Ryan for the foot race which was to have taken place in this city Tuesday afternoon, have brought suit against the stakeholder to recover the $1,500 which they had put up, and which he, under the terms of the articles of agreement signed by the parties to the race, paid over to the backer of Thompson.

Hale Bros. & Co. are building an addition on the west side of their brick store at Ninth and K streets. In size it will be 20x80, which will make their entire store 80x80. The walls are being made very heavy, so that two additional stories can be built on top of their store. The brick work is being done by P. A. Miller.

One of the clerks at the freight depot a day or two ago tested the strength of the cogs of a mowing machine by inserting the fore finger of his right hand between them. He found the cogs to be of good material, but his finger was not tempered just right for such experiments, and is now minus the nail and a portion of the adjacent flesh.

A dispatch received here yesterday announced the death at San Francisco yesterday morning of Daniel St. Clair Steevens, a pioneer Californian, and for many years a resident of Sacramento, where he held the position of Deputy Recorder from April, 1851, to April 1852, and subsequently was engaged in business as a searcher of records. He removed to San Francisco several years ago, and latterly has been employed in the Land Department of the Central Pacific Railroad Company.

FISH IN THE SACRAMENTO.—Never in the recollection of the oldest inhabitant has the run of salmon been as light in the Sacramento river at this season of the year as at present. A reporter met a couple of fishermen at Front and N streets, yesterday, who were trying to sell their boat and fishing outfit. They said they had caught but five salmon in three days, and had concluded to abandon fishing for a living and try the harvest field. On inquiry at the fish market near by, it was ascertained that the fishermen all along the Sacramento, from this city to Benicia, were in the same hard luck, and fully one-half of them had laid aside their nets, tied their boats up to the banks, and hired out as farm hands. Even the Chinese, whom it is said can live on a mere nothing, have in large numbers abandoned the salmon fishing and gone into other and more lucrative employment. The canneries along the river that this time last year were running full-handed night and day, now find that they cannot get fish enough to keep a small force at work two days in the week. The Capital Cannery in this city purchase all they can get, which, during the past week, has not exceeded one hundred fish a day, and some days much less. What is the reason of the small run this year is a question often asked, but one that the oldest fisherman cannot answer. The small run is not alone in the Sacramento river, but in the streams all along the coast. The Capital Cannery, by telegram, has received the following from the Columbia river fisheries: "Last Thursday 350 boats on the Columbia caught on an average two fish to a boat. On Friday they caught six to the boat. They did not fish Saturday nor Sunday, and on Monday they averaged twenty-two to the boat." Some of the fishermen are of the opinion that later in the season the run will be better.

The shad, planted by the Fish Commissioners some years ago, seems to have "caught on" in good shape, and the river is now well stocked with small ones. At the Sacramento Market, yesterday, were to be seen numerous specimens of this splendid fish, of which three were selected weighing in all twenty-four pounds, or eight pounds each. It is the opinion of those engaged in the fish business that the shad will thrive in the Sacramento river, and at no distant day will be as plentiful and valuable as the salmon.

THE FOURTH OF JULY.—So far no steps have been taken towards getting up a Fourth of July celebration in this city. Several citizens are anxious to get up a "Mardi Gras" celebration and to that end have held three meetings at the Courthouse, but so far have met with little or no encouragement, and the matter, from present indications, will be dropped. Their meeting last evening was attended by but nine citizens. They adjourned to Monday evening, June 2d, when, if they do not meet with more encouragement, the undertaking will be abandoned. In the matter of making preliminary arrangements for a proper celebration of the natal day, Sacramento is behind nearly all the other interior towns and cities, who have already perfected their arrangements for its proper observance.

BRITISH PICNIC.—The eighth annual picnic and open-air ball of the British Society will be held at East Park next Saturday. More than thirty handsome and valuable prizes are to be contested for at various games, in addition to the beautiful silver tea set which is to be given as a coupon prize, every holder of a full ticket being entitled to a chance to win it. The grounds will be brilliantly illuminated at night, and dancing will be carried on until midnight.

LAYING NEW PIPES.—W. Watt, City Tapper, is busily engaged with a force of men laying a new four-inch water main in the alley between L and M, Twentieth and Twenty-third streets. He has just completed the laying of a six-inch main between L and M, Sixteenth and Twentieth streets, a four-inch main between Q and R, Sixteenth and Eighteenth streets, and a six-inch main between P and Q, Sixteenth and Twenty-first streets.

CARD TO THE PUBLIC.—Owing to the unprofessional manner in which I was treated by the management of the Tivoli, I shall not appear as billed. I consider this card due the public and my Sacramento friends. The public's truly—BILLY BRYANT. *

CHANGED EVERY DAY FOR THE MECHANICS' STORE.

Paying Many Times Over For What is Free of Charge.

When we make HATS TO ORDER, a tag like this is made out:

BONNET No. 9,682.

DESCRIPTION.—A Straw Shape, with shired facing of satin, the outside trimmed with twisted bow of black velvet; beaded edge and ribbon strings.

Straw Shape	$1 00
⅜ yds. Black Velvet, @ $2 50	84
4 yds. Satin and Gros-grain Ribbon, @ 16⅔c	67
2 Ostrich Tips, @ 75c	1 50
1 Ornament	25
22 Pearl Beads, @ 2c	44
⅙ yd. Garnet Satin, $1 25	42
Making and placing in shirring	30
Hemming velvet	05
Trimming, including wire, lining and thread	40
Selling price	$5 87

It will be seen by above that on these tags only the exact quantity of materials used is entered. The cost of the Hat to the customer, in every case, is whatever the sum of the items on the tag amounts to. A record is kept of all tags, and a customer can, at any time, by sending us the number (fastened in the crown of each hat) receive an itemized statement of the cost.

* * * * *

It is obvious that with such a system, and with the prices of materials unalterably fixed in plain figures, that WE CANNOT DO TRIMMING FREE OF CHARGE. Where that method is pursued, the labor is divided about on the price of the materials, and customers in reality may pay many times over for what they believe they are getting free of charge. With reasoning people there can be no doubt which method is most ECONOMICAL.

New arrivals in FASHIONABLE PONGEES, in Plains and Stripes, at 25 cents per yard.

The man in New York in need of a Straw Hat gets but the same styles we are showing in Sacramento. The factories that supply the best Eastern trade also supply us.

We have secured another lot of
All-wool Sack Suits, $5.
Sizes, 32 to 37 chest. These are medium weights and last year's styles.

30 DAYS' TRIAL.
DR. HORNE'S ELECTRIC BELT
AS THE SOLE MANufacturer of Horne's Electric Belts, I warn the public to beware of the recklessly false statements that "C. N. Wes * * *" discarded the same. He could not possibly do so, since he never manufactured such Belts. Years ago I sold West's Belts, but discarded them on account of their defective electric construction. My NEW IMPROVED ELECTRIC BELTS are superior to any electric or galvanic belts in America in curing diseases without medicine. W. J. HORNE, Inventor and Manufacturer, 191 Wabash avenue, Chicago: 762 MARKET STREET, San Francisco.
mr1-3p6m&w6m

WHICH IS THE FALSIFIER?
W. J. HORNE IS MAKING ELECTRIC belts under my first two patents of Nov. 11, 1879, and Nov. 9, 1880, and has made no changes but what those patents cover and permit. Within the last year or so he claims slight changes, by adopting as his my own ideas developed in my improved Belt. He has done this without my consent, and attempts making them his by stamping his name on and calling them "Horne's Belt." He confesses to selling "West's Belts," but his "years ago" will reach to the present time, proved by his own publications. I sold him a half interest in my patents on April 16, 1881, and from this date he has advertised the Belt as his, and himself as its inventor, as is proved by Horne's *Electric Herald* of July, 1881, Oct., 1881, June, 1882, and July, 1883. In these he has cuts with "W. J. Horne's Belt" engraved and "Patented Nov. 11, 1879, and Nov. 9, 1880"—the dates of patents bought of me. Then it was "Horne's Belt," "such as the world never saw;" but now it is "discarded because defective." And yet he is now making this identical Belt, in every essential particular. In the same above papers he has engravings of gold medals awarded to "W. J. Horne" by California State Fair, 1880, 1881, for this same Belt. A gold medal nor any medal was awarded to "W. J. Horne" in the State of California. A silver medal was awarded the "San Francisco Magnetic Belt Co." (Horne & West) by State Fair in 1880. A candid public can now decide who falsifies. I hold myself ready to prove the above statements before the public or the law, as I have all the documents in my possession.
Those who desire a genuine and superior Electric Belt, invented, made and sold with honest claims, will call on or send to C. N. WEST, 652 Market street, San Francisco, Cal. Sent C. O. D. or for cash. KIRK, GEARY & CO., Druggists, Agents, Sacramento. ap23-1m

CANCER.

The development of the treatment of Cancer with Swift's Specific seems so wonderful, that all so afflicted should write us:

CANCER FOR 14 YEARS.

SPARTANBURG (S. C.), March 14, 1884.

I have for 14 years been a sufferer from a running sore on my face, that everybody called a CANCER. I have used over $300 worth of medicine, and found no relief. About four months ago, I bought one bottle of Swift's Specific from Dr. H. E. Heintish, and since have bought five others; have taken it, and they have CURED ME sound and well. My face is as free from a sore as anybody's, and my health is perfectly restored. I feel like forty years had been lifted off my head. Yours thankfully, ELIZA TINSLEY.

Mr. B. F. Burns, Hope, Ark., says, under date of January 22, 1884: "I have taken five bottles of Swift's Specific for a sore on my temple—said to be a cancer. I have been wonderfully benefited and will soon be a well man."

Mr. W. R. Robinson, Davisboro, Ga., writes, under date January 3, 1884: "I am getting on finely, the ulcer is gradually healing. I feel that Swift's Specific will cure the horrible cancer which has been feeding on me for over 20 years."

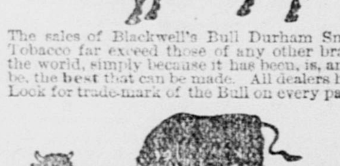
We have spent over **$100,000.00** in defending our right to the Durham Bull as our trade-mark. Undoubtedly he is to-day the most valuable Bull in the world. Now it stands to reason that we couldn't afford to protect him so thoroughly if **BLACKWELL'S BULL DURHAM Tobacco**, of which he is the representative, wasn't **the BEST Smoking Tobacco ever made.**



The sales of Blackwell's Bull Durham Smoking Tobacco far exceed those of any other brand in the world, simply because it has been, is, and will be, the best that can be made. All dealers have it. Look for trade-mark of the Bull on every package.

AYER'S SARSAPARILLA has demonstrated its power of cure for all diseases of the blood.

The Harpooner's Story.

New Bedford, June 1, 1883.

DR. J. C. AYER & CO.—Twenty years ago I was a harpooner in the North Pacific, when five others of the crew and myself were laid up with **scurvy.** Our bodies were bloated, gums swollen and bleeding, teeth loose, purple blotches all over us, and our breath seemed rotten. Take it by and large we were pretty badly off. All our lime-juice was accidentally destroyed, but the captain had a couple dozen bottles of AYER'S SARSAPARILLA and gave us that. We recovered on it quicker than I have ever seen men brought about by any other treatment for Scurvy, and I've seen a good deal of it. Seeing no mention in your Almanac of your Sarsaparilla being good for scurvy, I thought you ought to know of this, and so send you the facts.

Respectfully yours, RALPH Y. WINGATE.

The Trooper's Experience.

Masven, Basutoland (S. Africa,) March 7, 1883.

DR. J. C. AYER & CO.—Gentlemen: I have much pleasure to testify to the great value of your Sarsaparilla. We have been stationed here for over two years, during which time we had to live in tents. Being under canvas for such a time brought on what is called in this country **"veldt-sores."** I had those sores for some time. I was advised to take your Sarsaparilla, two bottles of which made my sores disappear rapidly, and I am now quite well.

Yours truly, T. K. BODEN, *Trooper, Cape Mounted Riflemen.*

YOUNG MEN

WHO MAY BE SUFFERING FROM THE effects of youthful follies or indiscretion, will do well to avail themselves of this, the greatest boon ever laid at the altar of suffering humanity. DR. SPINNEY will guarantee to forfeit $500 for every case of Seminal Weakness or Private Disease of any kind or character which he undertakes and fails to cure.

MIDDLE-AGED MEN.

There are many at the age of 30 to 60 who are troubled with too frequent evacuation of the bladder, often accompanied by a slight smarting or burning sensation, and a weakening of the system in a manner the patient cannot account for. On examining the urinary deposits a ropy sediment will often be found, and sometimes small particles of albumen will appear, or the color will be of a thin milkish hue, again changing to a dark and torpid appearance. There are many men who die of this difficulty, ignorant of the cause, which is the second stage of seminal weakness. Dr. S. will guarantee a perfect cure in all such cases, and a healthy restoration of the genito-urinary organs.

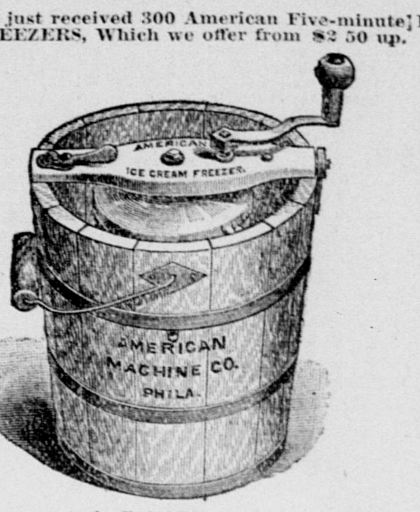
ICE CREAM FREEZERS FOR $2 50.

We have just received 300 American Five-minute ICE CREAM FREEZERS, Which we offer from $2 50 up.



This cut represents the FAMOUS FREEZER. Just think, Girls, for the small sum of 20 cents you can make Two Quarts of the best ICE CREAM in five minutes, which would cost at any Ice Cream Saloon $1 50. Be sure and get the AMERICAN FREEZER when you buy.

WHAT IS A HOME WITHOUT A REFRIGERATOR?

We have now in stock some 200 of the JEWETT'S REFRIGERATORS, which we offer from $10 up.

These REFRIGERATORS will positively save 20 per cent. more ICE than any other REFRIGERATOR, and for these reasons: First—They are all packed with fine charcoal and crushed bone; this in itself stamps them as the peer of all others. Second—The wood in these REFRIGERATORS is seasoned from three to six years before put in use. Third—The wood is then varnished with five coats of the best Nubian Varnish, which makes them free from absorbing the smell which must come from the different things stored there for cooling purposes. And Last—They are the only REFRIGERATORS with JEWETT'S ICE PRESERVER, which must be seen to be appreciated.

We invite the public to call and examine these REFRIGERATORS before buying elsewhere, as it will cost them nothing, but give us a great pleasure to show them.

We are constantly receiving Car-loads of New Style "GARLAND" RANGES from the East, and we would ask all our friends to see them before buying a RANGE or STOVE. We offer a No. 7 FOUR-HOLE "GARLAND" RANGE, without ware, for $17. We have but a few of this pattern left, so call at once if in need of a Good, Small Stove Range. We are Sole Agents on this coast for the GENUINE "GARLAND" RANGE. Look out for humbugs.
